WEDDINGS 2019/2020

## HI, I'M AMY

I'm a London based wedding photographer,  
available in the UK and beyond.

I always feel incredibly honoured when couples choose me to be the one to capture the story of their wedding day. In return, my goal is to make every client feel celebrated and deliver an authentic preservation of your memories that will allow you to relive the special day forever.

Your wedding photographs will be the only investment you make that will grow in value over time, so let's do it right! Let's truthfully capture you, the colours, details and atmosphere of your day.

Remaining unobtrusive, my approach centres around recording you and your guests enjoying the day as naturally as possible.

If you have questions about the packages/prices outlined in this brochure, please don't hesitate to ask.

Amy x

## MY STYLE

My style is mostly **documentary**, I tell the story as it really happened, alongside some natural, **relaxed portraits** of you both and a couple of family formals if you'd like them.

My '**fly-on-the-wall**' approach is always praised by my couples, one bride saying, *'no offence, but I kind of forgot you were there!'* I never want you to feel overly conscious of being in front of the camera.

I deliver most of my photos in colour reflecting the style you'll see on my website; keeping **colours true to life** and rich, **influenced by film photography**. Though, I do love black & white where appropriate!

## WHY I LOVE WEDDINGS

Weddings are the epitome of happiness, love, commitment and celebration. Of course, every wedding is different, but I always look forward to:

### The dancing

I'll be smiling ear to ear and boogieing along as I go. I usually stay a while after the first dance.

### The speeches

I will be laughing (and crying!) with you.

### The vows

Witnessing the moment you make your promises to each other makes me go gooey.

## WHAT'S INCLUDED?

- Pre-wedding consultation face to face (or by phone), where we can get to know each other a bit better and we can discuss your plans and photography preferences.
- Unobtrusive documentary coverage, relaxed portraits of you both, family photos.
- A sneak peek of at least 10 images within a week of the wedding.
- Individually edited, high resolution images delivered to you via an online gallery where you can download (pin protected), view and share with family and friends.
- 50 6x4" prints of your favourite photos.
- A non-expiring print release so you may also print the photos yourself.

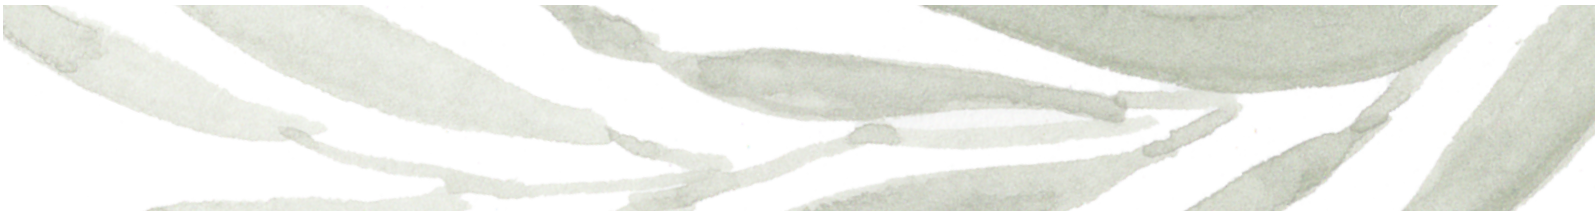

# ADD-ONS & ALBUMS

Add £50 for an extra 50 6x4" prints

Add £200 for a second shooter to join me for the day

10x10" Hardback photo album  
(starts at £60)

Handmade 10x10" 15 double page  
spread Fine Art Album  
(starts at £320)

# FAQ's

*How do we book?*

A 25% deposit and a signed contract secures your date!

*When is the balance due?*

The remaining balance is due at least 30 days before you say 'I do'.

*Do you use a second shooter?*

For larger weddings (100+), extra coverage, or where you would like groom preparations/ushers' lunch covered, I can bring a second shooter to help me photograph the day. The cost for this is £200.

*Are the images edited?*

Yes, I colour correct all digital images reflecting the style that you've seen on my website. Unless you prefer otherwise, most will be in colour. But I have delivered a whole gallery in black and white before - so it's totally up to you! I do not put my name/logo on the images.

*How soon do we receive the photos?*

You'll receive a sneak peek within a week. Then the final set of images will be delivered 4-6 weeks after the wedding. During the busiest period (Apr-Sept) please allow up to 8 weeks, but I will always do my best to get them to you as soon as possible without compromising on quality! You can follow my progress and see where I'm at via a link to a google document.

*Can we have the RAW files?*

No, asking your photographer for the RAW files really serves you no purpose at all. A RAW file is effectively a large file of information providing a base for editing. Part of my service is carefully selecting, curating and editing the images to tell your day in a beautiful photo series. In booking me, you are trusting me to provide the best images to do this.

*What equipment do you use?*

I shoot on two Nikon D750's, a range of prime lenses, a tripod, and a couple of flash guns.

*Are you insured?*

I am indeed, I'm covered by public liability and public indemnity insurance.

*Who owns the copyright on the images?*

I hold the copyright for the imagery although you are free to use them for personal usage.

*What do the couple's photos entail?*

This is a chance to enjoy 20 mins together away from the crowd. Normally, we'll take a stroll around the venue. With me, there won't be any formal posing, just a little guidance and prompts when needed.

*I hate having my photo taken!*

Don't we all?! I understand having your photo taken can make you feel self-conscious and uncomfortable, but please don't worry - try to relax and remember it's literally my job to make you guys look great! One thing my couple's ALWAYS comment on is how at ease I make them feel in front of the lens.

*We have more questions...*

No problem! If you haven't already, you can email me at [amy@amysanders.co.uk](mailto:amy@amysanders.co.uk) and I will get back to you as soon as possible!

*We have relived our very special day in every stunning photo that Amy has taken for us. We can't say it any better than a comment that a friend made to us: "Yours are the most beautiful wedding photos that I have ever seen!"*

*We wanted a 'no fuss' wedding photographer to capture a few natural images of our day, but the photos we now have are above and beyond what we could ever have imagined.*

*Amy is an amazingly talented photographer, capturing the colours and atmosphere of our sunrise wedding in the most beautiful of settings. We feel very lucky to have 'stumbled' upon Amy, and asking her to be our photographer. Thank you, Amy*

*- Sarah & Dave*
